

NEWSLETTER 2 SEPTEMBER 2014

WELCOME

A warm welcome to some more new attendees Abigail Smolinska, Willoughby Spry and Savannah Barker. We hope they settle in happily to enjoy their time with us.

DONATE WHILE YOU SHOP

Correction!!! I mistakenly wrote Easyfundraising.co.uk as the website address for you to set up your accounts. Please find the correct URL in the paragraph below. Sorry Donna!

You and anyone you know can raise funds for the pre-school by registering with **Easyfundraising.org.uk** so that each time you shop online, if you do so through that site a percentage is donated. The retailers involved with this are extensive and span a range of sectors from holidays and travel to broadband providers and antivirus software. Supermarkets such as Asda and M&S are also listed for when you order your weekly groceries online.

WEBSITE

For those new parents who may need to familiarise themselves with our policies and procedures please go to our website www.goudhurstvillagepreschool.co.uk. There is also a parent / carer page where you will find a curriculum for the term and every week information about our theme and colour(s). Children may bring in items of whichever weekly colour it is to display on our 'colour table' by the entrance to the hall. You will find term dates and important notices on our home page.

FACEBOOK

One of our main methods of parent communication is our Facebook page where we post our weekly themes, photos of the children's work, photos of outings and where parents can contact each other and ourselves. If you feel inclined there is an opportunity to post a review too and of course give us the thumbs up 'Like'. www.facebook.com/GoudhurstVillagePreSchool

CROCS

Quite a few of the children are wearing Crocs at the moment but may we ask you not to let them wear them at pre-school and save them for home as they are unsafe when the children climb in the playground. Thank you.

TRAYS

May we remind you to check your child's tray in the cupboard at the end of the hall at the end of every session? This is where their contact books are kept for you to read their key person's comments, which may not be added every session but when they feel there is something relevant to add. You can also add anything you may feel is important to your child (a new pet, an upset at home, a family bereavement) that all staff can reference should they need to. This is also the place any paintings, pictures or crafts will be put for you to take home.
